# Iteration 4 Presentation

We are the Henry Gets Moving Capstone Group!

- Kiri Woodruff
- Mars Williams
- Melody Hammel

Client Information

Nicole Koontz

Associate Lecturer of Exercise Science at Ball State

Head of the HGM Immersive Learning Project

Feedback

Mentor Feedback

Said we should keep going, and that we had made pretty good progress. Encouraged us to do our best.

Client Feedback

Suggested adding mouths to the light/moderate/vigorous faces to make them less uncanny valley. Otherwise thought it was great.

Client Software Use

Tested just about every feature, and ended by saying there were no issues and she thought we were doing great work.

Planned Iteration 5 Features

- Edit button for exercise logs replacing the delete button
- Ability to delete categories on the Admin panel
- Lock admin panel with password
- Family member manager
- Deploy!!!!!!!

Benefit to Client

- Is the product of the immersive learning class that Nicole teaches
- Teaches children about exercising and eating healthy
- Teaches families about health through demonstrations, diagrams, recipes, and exercising

- Before our project, this was all on paper and not reaching a broader audience
- Was attempted through a mobile app that had complications with deployment

Animations

Were visually appealing additions to the home page. Used Keyframes animations and gifs.

Log Out

Replaced squirm the worm in the header as a way for the user to log out of their account.

Downloadable games

Henry Gets Moving Race

Squirm Maze

The Move Cube

A carousel of games you can download and subsequently print out from the HGM immersive learning project.
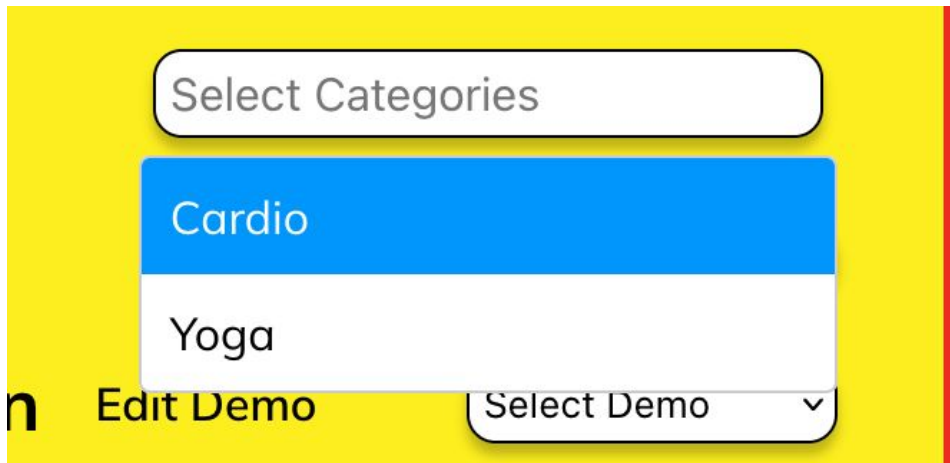

Exercise Log Delete

Added to the logs on the calendar page as a way of deleting logs.

Multiple Categories

Allows for exercises, demonstrations, and recipes to have multiple categories defining them.

THEY'RE HOLDING HANDS
